

This is to certify that

**CTO Technologies / Cloud21 / Intamerge / IODID**

Suite 24, 60 Churchill Square, Kings Hill, West Malling, ME19 4YU, Kent

Has been assessed

by Richard Evans for IT Governance Ltd  
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials PLUS

Scope: Internet facing infrastructure for Cloud21 including firewalls, routers, end user devices and hosted systems located in the United Kingdom.

Certification date: October 19th, 2018

Recommended re-assessment date: **October 18th, 2019**

Certificate no.: 0080888390544592

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
